Author Index	32

The titles cited in this list of publications are arranged in topical sections (see Table of Contents for major divisions of content). Each section is further arranged alphabetically by principal author, and then chronologically from January to December 1980. Each title is presented in this way:

Descriptive Abbreviation (identifies series, if any, and sequence in that series)	Title, additional descriptive information, date of publication or presentation	Author (principal author listed first)
--	--	---

If a title fits into more than one topical area, it is listed in each section that applies. To obtain copies of particular titles:**

1. Note descriptive abbreviation at left of title.
2. Consult the following list of abbreviations to determine where that type of publication is available from.
3. Write or call the appropriate address (see bottom of page 4). Include as much information as possible in your request, especially descriptive abbreviations, date, full title, and all authors.

** PLEASE NOTE: When the 1977-1979 edition of "Departmental Publications" was issued in July of 1980, the SIS office was inundated with requests, often for as many as forty or more publications to be sent to the same address. We do appreciate the enthusiastic response, but the unexpectedly great volume of requests received made an unwieldy addition to the other functions of the SIS. PLEASE LIMIT YOUR REQUESTS to no more than ten publications by selecting only titles you are fairly sure you can use. If circumstances compel you to request more than ten titles, please contact the SIS, and special arrangements will be made. Thank you for your consideration.

The SocioEconomic Information System welcomes your comments on this list of publications. We hope you find it useful, and we are particularly interested in ways to increase its usefulness. Please send your questions, comments, criticisms, and/or suggestions to the SIS address given on page 4.
